FLEXOVIT - ALL IN 1 BENEFITS:

- Cutting, light grinding and polishing with one single product
- No more time loss due to machine or product changes
- The fine grit provides an excellent and uniform finishing result
- Extreme long wheel life compared with conventional products
- Low vibration; comfortable operation
- Free of iron, sulphur and chlorine
- Very smooth grinding result with an incredible clean surface
- Low cutting temperature due to special fillers
- Available in 100mm, 115mm and 125mm diameters and... it's from Flexovit, so no need to question quality

MAXIMUM SAFETY

3 Extra strong reinforced layers ensures a tough and reliable construction.

CUTTING

Use at 30° angle for light grinding jobs.

The "All in 1" gives a nice smooth grinding result and an incredible clean surface. The triple layer reinforcement of this advanced wheel guarantees maximum user safety on grinding jobs.

GRINDING

Use at 30° angle for light grinding jobs.

The "All in 1" gives a nice smooth grinding result and an incredible clean surface. The triple layer reinforcement of this advanced wheel guarantees maximum user safety on grinding jobs.

POLISHING

A 15° working angle offers users of the "All in 1" a third function.

The fine grit together with light pressure provides an excellent and uniform polishing result.
