New Boar Drill

FOR SAFER AND EASIER DRILLING

The new generation of Boar series rock drills has set the benchmark for operator's comfort, overall drilling performance, noise emission and reliability

Better for the operator

- *Lowest weight in its class*
- *Comfortable drilling*
- *Less body strain*
- *Built in silencer for lower noise emission*

Better for the manager

- *Best drilling in all ground conditions*
- *Lowest overall cost per drill meter*
- *Outstanding reliability*
- *High quality ensures high performance*
- *Onsite world wide support*

Specifications:

Net Weight:	26 - 27 kg
Length:	670mm
Impact Rate:	2650 – 3400 blows per minute
Piston:	90mm diameter
Shank Size:	22 × 108mm standard (25 × 108mm optional)
Rotation:	290 – 320 rpm (standard left or optional right)
Working Pressure:	4 – 7 bar (60 – 100 psi)
Air Consumption:	4.1m ³ @ 5.1 bar (145 cfm @ 75 psi)
Air Connection:	19mm (¾" BSP/NPT)
Water Connection:	13mm (½") Hosetail
Water Consumption:	7 - 10l per minute
